PROFILE

As a Computer Science graduate with a strong academic background, I am deeply passionate about web development. I specialize in building responsive, user-friendly websites that offer smooth, engaging experiences. With a solid foundation in both front-end and back-end technologies, I focus on creating scalable, efficient solutions. I am eager to use my skills in impactful projects and continue growing in the tech industry.

SKILLS

Programming Languages: Python, Java (Basics), SQL

Web Development: HTML, CSS, JavaScript, React.js, Tailwind CSS, Node.js, MongoDB, REST APIs

Others: Git, GitHub, Spring Boot (Basics), Latex

Soft Skills: Problem Solving, Debugging, Adaptive Learning, Proficient in English

EXPERIENCE/INTERNSHIPS

OSLO HQ

August 2024 - December 2024

Front-end Developer Intern

Noida, Uttar Pradesh

- Spearheaded the development of a dynamic restaurant web app, leveraging **React.js** to build interactive and collaborated on creating mobile-responsive design, ensuring compatibility across various devices and screen sizes.
- Designed and implemented key features, including an intuitive **Admin panel, orders tab, menu management system, and inventory management**, ensuring seamless navigation and functionality.
- Optimized frontend performance by employing React hooks, efficient state management (Context API), and reusable components to ensure scalability and maintainability.

4th Orbit

January 2025 - Present

SDE Intern

Remote

- Developed, coded, modified and debugged application programs of varying degree of complexity with full independence.
- Assisted with creating cross-platform UI web components and built 7 responsive applications using front-end frameworks.
- Conceived and built optimized landing pages in HTML and CSS for integration and cross-browser compatibility.

PROJECTS

Food Delivery Web Application | JavaScript, React.js, Node.js, MongoDB

Aug 2024 – Dec 2024

- Developed a responsive Food Delivery Web App using React.js, with features like real-time search, dynamic routing, and secure payment integration. Built an Admin Dashboard, integrating RESTful APIs for real-time data updates.

Expense Tracker | HTML, CSS, JavaScript

June 2024

- A visually engaging and responsive expense tracker designed to provide users with a seamless financial management experience. This front-end-focused application features an intuitive user interface, interactive graphs to visualize spending patterns, and dynamic components to add, edit, and filter expenses.

List/Image Management System | Node.js, Express.js, MongoDB

July 2024

- A secure document management system built with Node.js and MongoDB, implementing standardized HTTP response codes (200, 401, 403, 500, etc), featuring JWT authentication and robust image handling.

EDUCATION

Silicon Institute of Technology

B.Tech in Computer Science and Engineering

Sambalpur, Odisha

September 2020 - June 2024

Deepika English Medium School

Senior Secondary School

Rourkela, Odisha

April 2017 - Mar 2019
